Divorce Yourself from Pain and Kidney Disorder
(By Dr. L. C. Babcock.)

Simple methods are usually the most effective ones when treating any disorder of the human system. The mere drinking of a cup of hot water each morning, plenty of pure water all day, and a little Anuric (double strength) before every meal has been found the most effective means of overcoming kidney trouble. Death would occur if the kidneys did not work day and night in separating poisons and uric acid from the blood.

The danger signals are backache, depressions, aches, pains, heaviness, drowsiness, irritability, headaches, chilliness, rheumatic twinges, swollen joints, gout.

It is such a simple matter to step into your favorite drug store and obtain Anuric, which was first discovered by Dr. Pierce, of the Surgical Institute, Buffalo. Every druggist dispenses it.

All people in America, and especially those who are past middle age are prone to eat too much meat and in consequence deposit uric acid (uratic salts) in their tissues and joints. They often suffer from twinges of rheumatism or lumbago, sometimes from gout, swollen hands or feet. Such people are not always able to exercise sufficiently in the outdoor air in order to sweat freely and excrete impurities through the skin. Anuric will overcome such conditions as rheumatism, dropsical swellings, cold extremities, scalding and burning urine and sleeplessness due to constant need of getting out of bed at night, by carrying off the uric acid poison.—Adv.

many weeks so they may enter active service. Mr. Campbell has enlisted in the marine corps and while the class of work was not surely given, he was practically assured of work in drilling recruits in one of the recruiting camps. Lieut. Campbell is the son of Mr. and Mrs. E. E. Campbell of this place. He was very popular here and has ranked well at Norwich and the best wishes of the people go with him.

BETHEL

A. R. Clark went yesterday to Boston to get eight workmen for the Eastern Talc company's mine at Rochester. The day before he came from Boston with four men, whom he delivered at the East Granville plant of that company. His method is to "order" by telegraph the number of men wanted and then to visit the employment agency and pick his men with a view as far as possible to their special fitness for the work. He states that none of the men ever stay more than three weeks, hence new ones are needed almost constantly. The agency

with which he deals furnishes hundreds of men weekly for a variety of industries.

QUIT MEAT IF YOUR KIDNEYS ACT BADLY

Take Tablespoonful of Salts if Back Hurts or Bladder Bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog, and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful, effervescent, lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.
